

1. A. Rockenbauer  
Electron Paramagnetic Resonance Studies of Tetrahedrally Coordinated Cu(II) Ions in Cu(1-benzene-azo-N-phenyl-2-naphthylamine)<sub>2</sub>  
Proc. AMPERE Congr. **15**, 333-334 (1969)
2. A. Rockenbauer and Gy. Gáti:  
ESR spectra of the chromium(III)-molybdenum(VI) oxide system.  
Acta Chim. Acad. Sci. Hung. **66**, 293-306 (1970)
3. A. Rockenbauer  
EPR studies of tetrahedrally coordinated Cu(II) ions in Cu(1-benzene-azo-N-phenyl-2-naphthylamine)<sub>2</sub>  
Acta Chim. Acad. Sci. Hung. **63**, 157-166 (1970)
4. A. Rockenbauer and L. Radics:  
Theoretical magnetic resonance spectra of AA'A"...XX'X"... systems  
Acta Chem. Acad. Sci. Hung. **68**, 189-203 (1971)
5. A. Rockenbauer, É. Budó-Záhonyi and L. I. Simándi:  
ESR determination of the stability constants of cobaloxime(II) pyridine mixed complexes in methanol  
J. Coord. Chem., **2**, 53-56 (1972)
6. A. Rockenbauer and P. Simon:  
Second-order perturbation treatment of spin Hamiltonian for low symmetry  
J. Magn. Resonance **11**, 217-218 (1973)
7. A. Rockenbauer and P. Simon  
Perturbation solution of the spin Hamiltonian of low symmetry using the projector technique  
Mol. Phys. **28**, 1113-1126 (1974)
8. A. Rockenbauer and P. Simon  
Determination of asymmetric **g** and **A** matrices in the spin Hamiltonian  
Proc. AMPERE Cong. **18**, 125-126 (1974)
